  - WBCHSE
- Secondary Education (10th Std.)
  - 2016
  - Percentage - 79
  - Taki Ramakrishna Mission High School
  - WBBSE

## Skills:

Java, C, HTML, CSS, MySQL, PhotoShop, Wordpress, Java Script

## Experience:

- **Internship (2021)**

I am a **Web Developer** intern at a B2B SaaS company known as **[i-SmokeStack]**. In my fruitful internship I learned about the technical terms used in the corporate world, keywords research, linkedin profile optimization and I have developed skills like working on Toggl, Hangouts, Gmeet, Trello etc.

Before joining the company I used to develop websites on HTML and CSS, but now I'm enhancing my domain range to Wordpress too.

For my personal experience and to get hands-on training, I developed two personal websites - one for myself and another for my internship mate. It was truly an enriching experience to work under mentors & learn new skills.

## Projects:

### → Personal Websites (HTML, CSS, JS, Bootstrap)

- ◆ <https://sakshisharma.site/>

This is a personal website that I developed with the help of templates for my internship mate.

- ◆ <https://rabisankar.tech/>

This is a personal website that I developed with the help of templates for myself.

### → Tour and Travel Management System (HTML, CSS, Java, MySQL)

- ◆ The project is based on a Travel Agency, where the admin can add new hotel information, hotel room availability, prices etc...
- ◆ The user can check hotel details according to the preferences and also can book rooms.

### → Medical Management System (Java, MySQL)

- ◆ This is an application based web project.
- ◆ Here an admin can update the medicines and can also delete the following medicines. This procedure is handled firmly by the admin section.

## **Certificate and Courses:**

### **❖ COURSERA**
